“ My sweet Jaren, we all love you and will miss you everyday. You had the sweetest soul, the brightest mind, & the most loving heart. I remember when you tried to explain something to me & I told you to "bring it down Jaren" so I could understand. You were so patient & enjoyed helping others. You truly loved people & encouraged so many around you. You were kind, brave, intelligent, thoughtful, gracious, thankful, & respectful of your elders. All these wonderful qualities that were instilled in you by your Mommy & Daddy. You loved the lord so much & now are able to look at him face to face. Your story continues on through those sweet babies & your brother. The whole family loves you so much & life will never be the same. You will always be with all the people you have influenced in your life & that is a multitude. We will never forget your smile (who could forget a smile like yours). We all love you always & forever. Give Memaw some love for us. ❤️❤️  
 Love, Aunt Amy

“ It was truly a honor and privilege to have known and been a small part of Jaren’s life as his middle school Sunday School teacher. He was always the leader in the class, answering questions, guiding the group in proper respect, and leading in prayer. Specifically, I remember him for ministering to me when my mom passed away. As an 8th grader, he helped a 50 year old man through some difficult times. He continuously reminded me of the Love of Christ and that my mom was with Jesus. My brother in Christ is with Jesus now, and I want to thank him for being a part of my earthly life and I look forward to joining together in Heaven. I pray for peace and comfort for his entire family. Danny & Julie Duce.

“ Jaren had the kindest heart, the sweetest soul ever, I don't know that I ever heard a negative word from him. He spoke good of everyone, was a friend to all and helped anyone he felt needed a little encouragement from grade school on. His hand was always extended. Prayers are with his family. Scott, Mendy and Gage, please know our prayers are with you.

“ *I worked with Jaren in the engineering group at Robins AFB. He was bright, passionate, and had a keen eye for detail-in other words, he was a model engineer! He was a pleasure to work with. I'll never forget the first project I worked with him on-he put a lot of hard work into making sure that his Air Force maintenance stands had improved bumper guards that he proudly described in a meeting as "fancy pool noodles". The world has lost a shining son, father, and coworker. My prayers are with his family and all those who knew him.*
