“ I remember when Krystal came to WA State to live with Skip and Jennifer. She was a ball of fire and had the biggest smile. She was such a hoot and made me laugh so much with her ditziness and her laughter. Her laughter was so contagious. It's been so long ago I can't remember anything specific nor very much anymore, but I remember how she walked into the room and the room just lit up with her charismatic smile and her happy-go-lucky attitude. You can see how much she enjoyed her life and how she was so happy living with Skip, Jennifer, Candace, and the kids. My deepest condolences goes out to her children, her family, and her friends. We love and miss you, Krystal, and will keep you in our hearts knowing that you're no longer in pain and suffering.

“Special K” is what I knew her as. Given that name lovingly by her Uncle Danny who she loved so much & also called him Dad. She always had a beautiful smile & could talk non -stop like no one I have ever known. She always wanted to please others & help out. Bless her heart she was trying to help me when she was younger by cleaning my hardwood floors with ammonia and stripped the finish off. She had no clue it would do that and felt so bad about it. She was just trying to help with the chores. She also had such beautiful red hair. I was glad that she never tried to change it, at least not that I know of. I will miss her, but I know she is overjoyed to be rejoined with her Uncle Danny, and her Grandparents and other loved ones who have joined the heavenly throng; with no more pain and suffering. She loved to sing and dance and I am sure that is what she is doing at this very moment and talking up a stream. See you soon Special K!
